The Get Your Christmas Organized Gift List

Make a list, check it twice, and then stick to it! Bring your list wherever you go so you aren't tempted by extra items. Use the GYCO budget worksheet before making your gift list. ***Shopping tip:** take a picture of your budget and your gift list with your phone. If you find a different item or something similar on sale for example, you'll know if it is worth swapping out for something on your gift list.
